

**Power Laundries, Cleaning and Dyeing Plants.**—The 317 power laundries and 981 dry-cleaning plants operating in Canada during 1951 provided services to the value of \$96,851,857. Laundry plants accounted for \$44,053,442 of this amount and dry-cleaning plants \$52,798,415. The 1951 survey of these related industries was taken as part of the Decennial Census and certain information not consistent with census requirements was not asked. For this reason the item "cost of materials" is not available for 1951.
