

Marine insurance showed a very large increase in Canada during the war years and substantial profits resulted. The results for 1941 to 1952 were as follows:—

Year	Premiums	Claims Incurred	Under-writing Profits
	\$	\$	\$
1941.....	6,011,922	2,781,190	1,694,470
1942.....	14,295,543	7,983,963	3,855,415
1943.....	10,061,059	4,931,286	3,449,873
1944.....	6,754,361	2,172,418	3,243,889
1945.....	5,978,274	2,995,704	1,704,367
1946.....	5,655,392	2,232,701	2,084,412
1947.....	7,932,404	4,529,161	1,031,313
1948.....	7,986,658	3,468,045	2,466,397
1949.....	7,715,671	4,327,555	1,342,088
1950.....	7,592,558	3,098,086	2,394,336
1951.....	8,908,639	4,670,972	1,716,201
1952.....	9,201,477	5,627,211	1,130,828

This class of insurance will, no doubt, continue to figure more largely in the business of companies in post-war years than it did before 1939.

26.—Casualty Insurance Transacted in Canada by Companies under Federal Government Registration, 1952

Class of Business	Number of Companies			Years Transacted	Aggregate Experience during Period Transacted	
	Canadian	British	Foreign		Premiums Written	Claims Incurred

¹ Sprinkler leakage business of fire companies was grouped with fire business from 1923 to 1940, but has been shown separately from their fire business since 1940 when written under a separate policy.
