<sup>1</sup> Edible meat excluding offal. <sup>2</sup> Basis cold dressed carcass weight. <sup>3</sup> Includes edible offal of beef and veal. <sup>4</sup> Quantity small; included with beef. <sup>5</sup> Edible meat excluding fats and offal. <sup>6</sup> The positive changes represent deductions from the available supply during a given year and therefore are subtracted; similarly, negative changes represent an increase in disappearance. <sup>7</sup> Includes rendered pork fat.

### Section 5.—Agricultural Statistics of the Census

Summary agricultural statistics, recorded by the Census of 1951, are given in the 1954 Canada Year Book, pp. 438-447. They include information relating to occupied farms classified by province, tenure and size, farm operators classified by age and province, farm machinery, farm electrification and farm areas. More detailed information may be obtained from The Ninth Census of Canada, 1951 *Census* Vol. VI, Parts I and II.

### Section 6.—International Crop Statistics

Tables 45 and 46 are based on estimates published in March 1954 by the Foreign Agricultural Service, United States Department of Agriculture, and give the acreages and production of wheat and the production of oats and barley for the harvests of 1952 and 1953, with averages for the years 1945-49, in the leading countries of the world.

#### 45.—Estimated Acreages and Production of Wheat Harvested in 1952 and 1953 in Specified Countries, with Average for 1945-49

Continent and Country	Acreages			Production		
	Average 1945-49	1952	1953	Average 1945-49	1952	1953
