

In order to retain some continuity with the past, Table 3 continues the historical series on the chief component material classification basis. Similar statistics under the Standard Classification groups (see pp. 644-655), worked back to 1945, are given in Table 10, pp. 636-637.

3.—Summary Statistics of Manufactures, by Industrial Group, Significant Years, 1917-52

Industrial Group and Year	Estab-lish-ments	Em-ployees	Salaries and Wages	Cost of Materials	Net Value of Products ¹	Gross Value of Products ²
	No.	No.	\$	\$	\$	\$
Vegetable Products—						
1917.....	4,151	62,777	45,915,557	367,214,061	183,782,501	550,996,562
