<sup>1</sup> No change is shown here since data were not collected separately for this type of structure. Inasmuch as the over-all change for gas and oil facilities was calculated without regard to this fact, the sum of the value changes shown for the items in this group does not agree with the total change shown for the group.

Table 12 provides estimates of total expenditure in Canada on each type-of-structure classification for which the data are available. It contains detailed data from which Tables 10 and 11 were derived.

**12.—Detailed Estimates of Value of Construction Work Performed, by Type of Structure, 1952-54**

NOTE.—Actual expenditures 1952, preliminary actual 1953, intentions as of January 1954.
