Subsection 1.—Provincially Controlled Elementary and Secondary Schools*

Enrolment and Attendance.—At the elementary school level enrolments have been increasing steadily since the school year 1944-45. Birth registrations and immigration figures for the past few years indicate that this trend will continue and by 1959-60 the enrolment in the elementary grades will be 2,900,000 or more and in the secondary grades at least 532,000, a total of 3,432,000 compared with 2,645,000 in 1952-53.

* Academic and vocational day schools only.
