PRINCE EDWARD ISLAND.

37. It will be seen that Roman Catholics comprised 43.2 per cent., or nearly half of the population of this Province. Presbyterians coming next, also with a large following, viz., 31 per cent. The members of the Church of England were very few in number, being only 6.6 per cent., they also showed a decrease of 28 in number since 1871. This is the only Province in which Jews do not appear.
