NOTES.

Dans le résumé qui précède, les statistiques de l'immigration, des pêcheries (1871-1916), du commerce, des transports maritimes, des postes, de la dette publique, des budgets, des banques d'épargne de l'Etat et caisses d'épargne postales, concordent avec les exercices budgétaires se terminant le 30 juin jusqu'en 1906 et le 31 mars des années subséquentes. Les statistiques concernant l'agriculture, l'industrie laitière, les pêcheries (1918-22), les minéraux, les manufactures, les banques, les compagnies d'assurance, les compagnies de prêts et les compagnies d'administration sont basées sur l'année normale et celles des chemins de fer se rapportent aux années se terminant le 30 juin 1871-1919 et aux années civiles 1920-1922. Les statistiques des canaux comprennent les années de navigation. Celles des télégraphes correspondent avec les exercices budgétaires, quant aux lignes de l'Etat, et avec les années du calendrier quant aux autres lignes.
