Principales exportations canadiennes.—L'état qui suit montre les principales exportations domestiques canadiennes les années fiscales terminées en 1890, 1900, 1910, 1920, 1930, et 1934 disposées par ordre de valeur en 1934. Dans la présentation de ces chiffres d'exportations sur une période de 40 ans, il faut tenir compte des mêmes observations sur les fluctuations des prix et du commerce que celles mentionnées dans l'étude des importations, (p. 554).
